

Support Across The Board.™

Industry Leaders Team to Deliver Worldwide Training Event

Technical Program

- One-day seminars will feature:
 - An array of 90-minute training courses
 - Specialized training on design solutions for FPGA circuitry and the surrounding components
- Partner demonstrations & exhibits (varying by region) sponsored by:
 - Agilent Technologies
 - Analog Devices
 - Eridon
 - Intel Flash Memory Group
 - Lauterbach
 - LynuxWorks
 - Micron
 - Murata
 - National Semiconductor
 - NEC Electronics America
 - Samtec
 - Sharp Microelectronics
 - Synplicity
 - Texas Instruments
 - The MathWorks

Avnet Electronics Marketing and Xilinx announce X-Fest – a series of technical seminars offering practical, how-to training for FPGA, DSP, and embedded systems designers.

Analog Devices, National Semiconductor and Texas Instruments are among the list of gold sponsors participating in the worldwide technical seminar series. The series kicks off its 90-city global tour in Beijing in April and continues through July in locations throughout Europe, Asia, Japan and North America.
