

# Yellow Pages

Today's marketplace demands integrated world class solutions. The Xilinx Alliance Program assures you of the best available "total solutions" combining Xilinx programmable logic with key technologies from our Alliance Program members.

All Xilinx Alliance Program members contribute to a broad selection of industry-standard solutions dedicated for use with Xilinx programmable logic. Members provide at least one of the following products or services for Xilinx current device families or development flows:

- Board-Level Products
- Design Services
- DSP Tools
- Electronic Components
- EDA Tools
- Embedded Processor Related Products
- Integrated Circuits
- IP Cores

Furthermore, Xilinx Alliance Program members are a worldwide resource. Members that supply products have the staffing and infrastructure to support multiple customers from differing geographies at one time.

For a complete description of Xilinx Alliance Program members' products, services, and contact information, please visit our website at [www.xilinx.com/alliance/](http://www.xilinx.com/alliance/).

Xilinx Partner	Board-Level Products	Design Services	DSP Tools	Electronic Components	EDA Tools	Embedded Processor Products	Integrated Circuits	IP Cores
<b>3T BV</b> <a href="http://www.3t.nl">www.3t.nl</a> Design services: specialized in measurement instruments, fail-safe controlling, medical equipment, communication & computer peripherals		✓						
<b>4i2i Communications Ltd.</b> <a href="http://www.4i2i.com">www.4i2i.com</a> Video Coding, Modems (OFDM), Error Correction								✓
<b>A2E Technologies, LLC</b> <a href="http://www.a2etechnologies.com">www.a2etechnologies.com</a> Verilog, VHDL, DSP, Virtex, Spartan, video, automotive, telecom		✓						✓
<b>Accelchip Inc.</b> <a href="http://www.accelchip.com">www.accelchip.com</a> DSP cores that directly implement matrix operations in markets such as Communications, Intelligence, Electronic Warfare, Radar, and Sonar.			✓					✓
<b>Accelerated Technology</b> <a href="http://www.acceleratedtechnology.com">www.acceleratedtechnology.com</a> Accelerated Technology provides products and services worldwide to a wide variety of end-users, OEMs and IC vendors.						✓		

Xilinx Partner	Board-Level Products	Design Services	DSP Tools	Electronic Components	EDA Tools	Embedded Processor Products	Integrated Circuits	IP Cores
<b>Accent Srl</b> <a href="http://www.accent.it">www.accent.it</a> Design services and platform-level intellectual property in the field of telecommunications, multimedia applications, and low-power general computing		✓						
<b>Accord Software &amp; Systems Pvt. Ltd.</b> <a href="http://www.accord-soft.com">www.accord-soft.com</a> Digital Base band processing		✓						
<b>Addvalue Technologies Ltd.</b> <a href="http://www.addvaluetech.com">www.addvaluetech.com</a> Digital wireless and broadband communications solution provider, focusing on wireless and digital technologies		✓						
<b>ADI Engineering, Inc.</b> <a href="http://www.adiengineering.com">www.adiengineering.com</a> Solutions for high-speed communications, embedded computing, multimedia, and signal processing products	✓	✓						
<b>Advanced Electronic Designs, Inc.</b> <a href="http://www.aedmt.com">www.aedmt.com</a> Design services and manufacturing support specializing in hardware and software design for embedded systems	✓	✓						✓
<b>Advanced Principles Group, Inc.</b> <a href="http://www.advancedprinciples.com">www.advancedprinciples.com</a> High-Speed, Complex FPGA designs, and Reconfigurable Computing		✓		✓				
<b>AEE Engenharia Eletronica</b> <a href="http://www.aee.com.br">www.aee.com.br</a> Board level design; GPS, GSM, & CDMA interface; A/D & D/A conversion; wireless, sensors and video	✓	✓
