

# Customer Update XCU2000-04

## XC9500XL Device Enhancement

---

**Products Affected:** All XC9500XL 3.3-volt devices.

**Change Description:** An XC9500XL enhancement has been made that improves device configuration and decreases corresponding product lead times. This enhancement does not impact the form, fit or function of the devices. As a result, no customer action is required. Xilinx is proactively providing this notification in an effort to ensure superior communication with our customers.

**Key Dates:** Enhanced XC9500XL devices will begin shipping on October 10, 2000.

**Traceability:** These devices can be identified by the circuit revision code "B," typically found after the package/pin count designator on the top mark of the device. For more information on device marking, see <http://support.xilinx.com/techdocs/1067.htm>.

**Response:** No response to this notification is required. Requests for additional data or support should be made to your local Xilinx FAE, or email [pcn@xilinx.com](mailto:pcn@xilinx.com).
