

Discontinue Low Volume Members of the XC5200 Product Family

PDN2004-22 (v1.1) August 27, 2004

Product Discontinuation Notice

Overview

Xilinx is discontinuing certain members of the XC5200™ product family.

Description

These device package combinations have declined in customer usage to the point where continued manufacturing is becoming no longer economical. Please note that a Pb-free version will not be provided for discontinued part numbers.

Direct replacement devices are listed in the tables below. Although some discontinued part numbers do not have direct replacements, there are indirect device/package-pin combinations available as alternatives. Please contact your [Xilinx Sales Representative](#) for help with replacement devices.
