Product was released on a limited basis in EDK 11.3 in September, 16 2009, and was last available in EDK 12.3. Product discontinued October 24, 2011. Support for this core is being transferred to Missing Link Electronics.

Multiple Xilinx Development Systems Kits and Boards

Available While Supplies Last: The products listed are in stock, but will NOT be replenished when inventory has been depleted. When this occurs the product will be discontinued and no longer available for order. If the suggested replacement product is not acceptable, please contact Xilinx Customer Service and they can refer you to the Xilinx contract manufacturer and you may possibly be able to purchase the board directly from the contract manufacturer.

Six months after the obsolescence process begins no technical support will be available for the product.

Technical Support

For Technical Support on these products refer to Solution Center [Xilinx Answer # 40174](#). Support for these products will be limited to tools usage and existing documentation.

Response

Customers are requested to place last-time-buy orders in a timely manner prior to the key dates listed above to avoid product availability issues. If you anticipate that your last time buy requirements will exceed the current rate, please provide your Xilinx Sales Representative with a forecast of the requirements. All orders will be supported on a first-come, first-served basis with the non-cancellable and non-returnable (NCNR) condition. For additional information or questions, contact your local [Xilinx Sales representative](#) or [Distributor](#).

Important Notice: Xilinx Customer Notifications (XCNs, XDNs, and Quality Alerts) can be delivered via e-mail alerts sent by the Support website (<http://www.xilinx.com/support>). Register today and personalize your “Documentation and Design Advisory Alerts” area to include Customer Notifications. Xilinx Support provides many benefits, including the ability to receive alerts for new and updated information about specific products, as well as alerts for other publications such as data sheets, errata, application notes, etc. For information on how to sign up, refer to [Xilinx Answer Record 18683](#).
