

Overview

The purpose of this notification is to communicate Xilinx will add a new tray supplier for the Xilinx TQ144 and TQG144 packages.

Description

Xilinx is adding an additional tray produced by Daewon for the TQ144 and TQG144 packages.

The Daewon tray matrices are designed to be compatible with the current Kostat shipping tray, and will have the same X/Y tray dimension. However, the Daewon trays are non-stackable with the Kostat trays due to a slip lock feature. It is recommended that customers not stack or mix the Daewon trays with the Kostat trays.

Xilinx will begin using the new shipping tray starting October 6th, 2013.

Please reference [Table 1](#) and [Figure 1](#) for clarification:
